Title: Cell Proliferation Factor FWA267

Inventor(s): Hui et al.

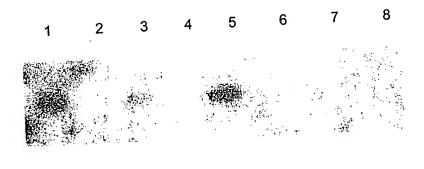

Atty Dkt No: 043774/268252

1 2 3 4 5 6 7 8

Α

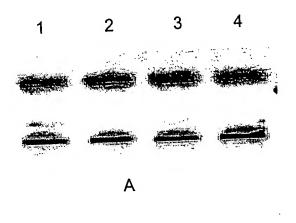

В

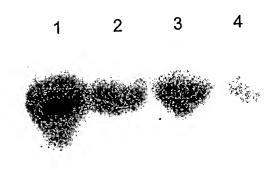

- 1 Promyelocytic leukemia HL-60 cell lines
- 2 Cervical carcinoma S3 strain
- 3 Chronic myelocytic leukemia K-562 cell lines
- 4 Lymphoblastic leukemia MOL-4 cell lines
- 5 Burkitt's lymphoma Raji cell lines
- 6 Colonic adenoma SW480 cell lines
- 7 Lung cancer A549 cell lines
- 8 Melanocarcinoma G-361 cell lines

Title: Cell Proliferation Factor FWA267

Inventor(s): Hui et al. Atty Dkt No: 043774/268252

3/7

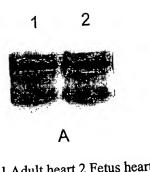

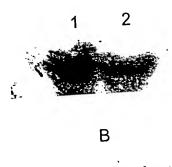

В

- 1 For reference (non-stimulated)
- 2 0.5 mM Homocysteine stimulated 18 hours
- 3 1.0 mM Homocysteine stimulated 18 hours
- 4 2.0mM Homocysteine stimulated 18hours

4/7

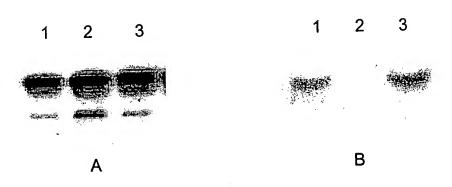

1 Adult heart 2 Fetus heart

1 Adult heart 2 Fetus heart

FIG 4

- 1 Adult heart
- 2 Fetus heart
- 3 Tetralogy of Fallot fatty heart muscle
- 1 Adult heart
- 2 Fetus heart
- 3 Tetralogy of Fallot fatty heart muscle
